

flash of genius. To-night the "Colleen Bawn"—the most beautiful of all of Bourcault's charming plays—will be produced.

SOUTHERN RELIEF MEETING.—At a meeting held at Huffaker's Station, April 15, for the purpose of appointing a committee to solicit aid for the relief of the suffering people of the Southern States, G. W. Huffaker was elected chairman, L. Arnstein Secretary, and G. W. Huffaker, Treasurer. L. P. Dexter, James O. Gregory and Solomon Gellar were elected as a Committee of Collection. On motion of L. P. Drexler, it was decided that the committee pay over all moneys collected on Monday, April 22. Mr. Huffaker stated to the meeting that he would remit to J. H. Latham, Treasurer of the Southern Aid Committee of Virginia, Nevada, all moneys paid in by the committee free of charge. The meeting was then adjourned.

FRANK MARTIN.—Our remarks in connection with the order of the City Recorder in the case of Frank Martin were perhaps such as might be more severely construed than the circumstances would warrant. To put it in a milder form; it appears that Frank being about to start for Silver Bend, got on a sort of bend in advance; was brought before the Court and making known his intention of departing for the new mines was discharged by the Judge, providing he would go as he said he intended to Silver Bend. He says he is going to keep his promise, and that drink is his only besetting sin, intends hereafter to shun the "flowing bowl." All right, and we wish him luck!

SMALL-POX.—There are several cases of small-pox in the city at the present time, none of them severe, however, we believe. This disease is but little worse in this country than the measles. In 1860 and 1861 we had it here right along for about two years, and during the whole time but two or three cases proved fatal. Persons having a dread of the disease will do well to take it while they have a chance and at once be over with it. Persons living at a distance, or citizens of California, will find good accommodations here in case they wish to go through a vaccination that will stand all tests.

GOULD & CURRY.—Work is still progressing satisfactorily in the main shaft, and the chances are that in the course of two or three months paying ore will be found at a greater depth than ever heretofore on the Comstock lead. Pending the sinking of the shaft, ore is being extracted by the contract from the upper levels. Mr. Wm. Hatch, the contractor, has at this time forty men employed, and is taking out daily seventy-five tons of ore, worth \$20 per ton and upwards. Thus it will be seen that there is still a considerable amount of work being done in this famous old mine.

SOMETHING NEW.—A day or two since we saw an Indian man passing along C street with a papoose on his back—a sight the like of which we presume has never before been seen, for the squaws always carry the

as business of great importance will be transacted.

RECEIVED SENTENCE.—M. White was yesterday sentenced to three years' imprisonment in the State Prison for an assault with intent to kill. On a charge of robbery, District Attorney Bishop entered a *nolle prosequi*.

TEAMSTERS.—Those requiring the services of an experienced veterinary surgeon for either horses or cattle, will do well to call upon J. McK. Munro, No. 225, O street, on the Divide.

The sidewalk on D street, between Union and Taylor, is being thoroughly overhauled and repaired. It has for a long time been in danger of tumbling down.

GOLD HILL FIRE DEPARTMENT.—An election for Chief Engineer of the Gold Hill Fire Department will be held Wednesday, April 24.

Don't forget to get registered, if you care anything at all about participating—in the capacity of an American citizen—in the approaching city election.

The snow is fast growing beautifully less on the mountains surrounding the city. Brown will soon be the predominating color here in every direction.

SUTRO TUNNEL MEETING.—A meeting of the Sutro Tunnel Company will be held at the office of the Gould & Curry Company at 7½ o'clock this evening.

Those in need of lime will find a good article at the kiln of G. G. Waters on the American Flat road, but four miles out of town.

MILLMEN.—The California Bank will buy all the quicksilver flasks that may be brought to that institution in good order.

EASTERN DISPATCHES.

(SPECIAL TO THE ENTERPRISE AND SAN FRANCISCO TIMES FROM THE UNITED STATES AND EUROPEAN TELEGRAPH NEWS ASSOCIATION.)

Washington Affairs.
